

SAUNDERSFOOT COMMUNITY COUNCIL

Minutes of the Special General Meeting of the Saundersfoot Community Council held on Wednesday 30th May 2018 at Little and Large Bites, Saundersfoot at 6.30pm

Present: Cllrs M Williams BEM (Chair), S John (Vice Chair), P Baker (County Councillor), B Cleevely, R Hayes MBE, S Boughton-Thomas, N Sefton, D Ludlow and A Upham

1. Apologies for Absence

Cllrs T Pearson, A Mattick, and P Beedles

2. The Community Car Park

It was noted that over the Whitsun School holiday this week the Community Car Park and access to the playing fields, for parking purposes, had become very chaotic and the impending pay and display conditions to be placed upon the community Car park could become confused with that of the paying for parking upon the sports field. Various scenarios were discussed regarding patrons paying to park in the Community Car Park and how this could be brought to fruition.

While discussions were taking place the issue of insurance and liability of vehicular access over the Council owned access roadway was addressed. This is still a matter that has not been confirmed.

This heading has been diarised for the June meeting following a meeting with the Saundersfoot Sports and Social Club representatives, advice from Solicitors and the Council's insurers.

The Clerk confirmed that the Notices would be erected tomorrow within the Community Car Park (Thursday 31st May 2018)

Cllrs Boughton Thomas and Hayes MBE left the meeting

3. The Saundersfoot Community response to the Pembrokeshire Coast National Park's Draft Local Development Plan

The draft response penned by Cllrs Baker and Williams BEM, taking into consideration the response from the public meeting, correspondence received by the Council and conversations held between Councillors and members of the public, was circulated by the Clerk prior to this evenings meeting.

Discussion took place regarding potential, addition sites around the Saundersfoot area. The Council did not think that there were any further potential sites at this time.

Cllr Sefton proposed that Cllr Baker should talk on behalf of Saundersfoot Community Council as their representative if so required; Cllr Williams BEM seconded the proposal with all Council in full agreement.

All Councillors considered the Draft response and it was agreed that this response should be forwarded to Pembrokeshire Coast National Park for their consideration.

Meeting ended at 7.45pm
