

## JEFFREYSTON PLAY AREA

The Community Council have discussed for a while the enhancement of Jeffreyston play park. Recently they were approached and offered support to look into the possibility of lottery funding .

To complete an application not only takes time and commitment but also needs to represent the views of the local children and adults it is to benefit.

We need your valuable views and ideas. The children in St Oswald's VA School have been asked to draw picture designs showing what they would like to see in the park.

Please can you submit your views and ideas to us by the 3rd April. This will be included in our initial application and will show community involvement. We hope this will be the start of the re-establishment of community events for everyone.

If we are successful we will keep everyone informed of our progress .
