2

Signed: *Marilyn Bevan*

Dated 18<sup>th</sup> November 2019

Chairman to Wiston Community Council

## WISTON COMMUNITY COUNCIL

- c. Land east of Shoals Hook Farm, Haverfordwest: variation of condition 1 of planning permission 15/0045/PA to vary the operation life of the solar farm – conditionally approved (19/0448/PA).
- d. Riverside Ranch, Crundale: New access way (19/0625/PA) – councillors questioned the need for a third entrance to the property.
- e. Land east of Gilbert’s Park, Clarbeston Road: residential development of 5 houses with new site access road and associated external works (19/0580/PA).
- f. Sun Cottage, Wiston: alterations and extension (19/0650/PA).
- g. The West, Walton East: replacement dwelling (19/0670/PA).

### **8. Highways**

- a. Letter from Robin Sheldrake regarding Speed Control Humps in Clarbeston Road:

*“In the period May to September 2019, I had the opportunity to share the play area in Clarbeston Road with some local families who meet there on fine days with their children.*

*The play area itself is a valued asset, fenced off from the road, and well maintained.*

*It is located between the residential Brooklyn’s Close, and Moorfield Avenue, with the Post Office Van and the visiting Library Van in the Lay-by on the opposite side of the road. The bus stops are in this area.*

*The road itself is relatively straight from the corner with Orton Lane at the South end, sloping gently down to the corner at Picton Terrace at the north end.*

*You will know that traffic using this road is not just the simple traffic between Wiston and Clarbeston Road. The railway bridge in Clarbeston Road is the main railway crossing point for traffic from the A40 at Slebech to all the agricultural areas of central Pembrokeshire., from Llawhaden to Spittal, to Maenclochog and the north.*

*Because of this, the Play Area sees Milk Tankers, Agricultural Feed Lorries, Straw bale delivery lorries, Builders Merchants, Cattle Trucks, and all the wide range of vans, lorries and specialist vehicles with which you are familiar. Many of these vehicles are articulated, and a high percentage are high sided, creating powerful air currents as they pass. Add to this the normal traffic to be expected at School leaving time. The village has a 30mph speed limit. That is all that could normally be expected. But the situation in Clarbeston Road is better than normal.*

*We are blessed with one of the most successful football clubs in Pembrokeshire. The popularity of pitches South of the stretch of road in question has been recognised by the provision of a car park in The Graham Roberts field. Clarbeston Road AFC are to be congratulated on creating this venue. There are so many teams representing the club, that on match days, traffic is drawn to the village from whichever teams that are playing on the day, and their parents and supporters.*

*At present, traffic entering the village from the South is forced to slow down because of the sharp left turn after Benlyn. The even sharper right turn at the Orton Lane junction reduces speed again, but the straightening in the road passing Highclere, together with the downhill slope enables all vehicles to gain momentum at the point where the greatest risk to pedestrians exists. Estimates of Speed are usually made by vehicle engine sound, but also by experience of gauging how long it takes a vehicle to cover a certain familiar distance. Without reliable supporting data, claims of excessive traffic speed are difficult to bring to the attention of the relevant authorities. Especially in this case, where I believe the Highway Authority is quite unaware of the volume of large vehicles with no alternative but to use this road to cross the railway on their way from the A40 at Slebech.*

*However, the installation of Speed Control humps, one set by Brooklyn, and another set by Willow Mill, would undoubtedly reduce the average traffic speed.*

*Clarbeston Road deserves the installation of Speed Control Humps. Are they referred to as Traffic Calming Measures? Whatever the name, they are routinely installed adjacent to all schools, including Spittal and Wiston.*

*There is precedent for the installation of Speed Control Measures unrelated to schools.*

*Quay Street, Haverfordwest.*

*Victoria Place, Haverfordwest.*

*Perrots Road car park.*

*I am sure you will be able to think of other examples.”*

## **WISTON COMMUNITY COUNCIL**

The councillors agreed that there was a need for traffic calming in the area, and David Howlett agreed to forward the email to PCC, Highways Department. It was hoped to that a speed survey could be actioned in vicinity of the playground to strengthen the case for the case for this.

### **9. Any Other Business**

- a. Digital Pems – Fibre to the premises broadband scheme proposed by PCC: David Howlett advised that PCC have a project to encourage Broadband providers to roll out fibre to homes not just to the green cabinets in the villages. There were 80 proposed projects in Pembrokeshire with the area north of Clarbeston Road to include Walton East being one on them.
- b. Ash die back – trees affected in Wiston: PCC had identified the trees they would need to deal with by either painting them with orange paint or tagging them. The trees identified in Wiston had not been identified and therefore would need to be dealt with by the landowner on which they stood. Marilyn agreed to investigate where the trees were and may be responsible for them.

### **10. Next Meeting**

The next meeting will be held on Monday 18<sup>th</sup> November 2019 at 20:00hrs at the Memorial Hall, Clarbeston Road. This is subject to change is a quorum of councillors is not met.

As there was no further business the meeting closed at 21:30hrs.
