INCORPARATING LLAWHADEN, ROBESTON WATHEN, GELLI & BETHESDA

Minutes for the Community Council meeting held on Thursday 3rd February 2022 at 20:00hrs at Llawhaden YFC & Community Hall.

Present:

Hugh Watchman (Chair)

Tracy Watkins

Cllr Di Clements (County Councillor)

Tim Simons

Victoria Rabiya McAndrew

Cllr Jon Harvey (JH) (Pcc Cabinet Member for Planning)

Samantha Hebblethwaite

Catherine Hancock

Hugh welcomed everyone to the meeting including residents who wished to raise issues regarding a planning application for Cwm Farm (agenda item 8a).

Hugh gave a brief background into the Cwm Farm Planning application and explained that valid objections could be uploaded directly to the Pembrokeshire County Council (PCC) planning portal. It was noted that threats and intimidation have been reported to Llawhaden Community Council, and advice given to report any such incidents to the police. Two previous applications had been submitted and both have been previously refused. The last application has been appealed and enforcement is now in place, although on hold due to the current application. Previous refusals were decided upon the removal of water and it's proximity of the building to the nearest dwelling.

The planning committee will sit, and residents are able to appoint a spokesperson to have their objections heard. A site may be actioned by the planning committee. If the application is refused the applicants have the right of appeal again.

JH to check if a SUDS report is needed.

Residents advised the meeting that issues that have been previously raised with the case officer, but to date no response had been received. JH confirmed that the case officer is currently on sick leave, but he agreed to look into the lack of response.

Issues in relation to the Bridle Path were also raised, with residents asking if the surface of the bridle path was allowed to be changed? Is commercial use permitted? Concerns were noted re the size and frequencies of vehicles travelling along the path. It was felt that it was no longer safe for dog walker, horse riders, children etc. to use the path.

JH confirmed the date last for objections is the 9th February, and Hugh encouraged letters to be sent in prior to this date and offered support to upload these to the portal if needed.

Concerns that local residents have not been informed, not even immediate neighbours and notices are not in visible locations. Di offered to print additional notices to put these in more prominent locations.

Hugh confirmed that letters received by Llawhaden CC have been added to the portal.

Concerns noted include

- The amount and size of animals
- Waste – what provision is in place
- Agricultural justification – does PCC have the necessary skills within the planning department to determine some of the technical details?
- NRW report is yet to be submitted
- Water pollution
- Noise pollution
- Highways have noted no concerns. Has a site visit occurred? Can this be raised as a safety issue?
- Other businesses being run from the land.

JH advised that objections can be raised by the community council on behalf of the residents but that residents can raise individual objections.

Di advised that if any further questions needed to be asked, she can take these back to JH later.

Objection points which are valid:

- Bridle path, erosion of and use of
- Vehicles, access to the bridle path and safety within the village
