Clarification will need to be sought regarding emptying of bins and whether this is something PCC /PCNPA would have responsibility. **Action: Cllr Ward will design a sign and Cllr Williams will make enquiries with PCNPA and PCC.**

2. Fly tipping and refuse waste- it has been noticed that a couple of grey bags have been spotted at sites through the village, also there is an accumulation of random pieces of waste not only through the village but along the approach roads that seem to coincide with refuse collection days. Action: [Cllr Williams to draft letter to Rhys Sinnett \(PCC\) to raise concerns and seek a solution.](#)
8. **Single Use Plastic** – Concern has been raised about the use of plastic materials to protect Flyers that promote events through the village. Historically village flyers have always been a popular way of promoting events, but all agreed that where possible, responsible groups / businesses should use recyclable products and be responsible for timely removal. Unlike laminated posters, Polypockets could be used more than once. As not every household access social media or in some cases, the internet, there is a recognition of the need to be inclusive. This does not preclude anyone who sees an out-of-date poster removing it. What about the slogan "If you see it - own it"?](#)
