COMMUNITY BENEFIT FUND

As a result of the recently commissioned solar development at Wogaston Farm funds have been donated by the developers, SunEdison, for the benefit of the Angle community. It is the responsibility of Angle Community Council to invite applications from community groups for financial support for projects that will have a lasting benefit to the community. Applications will then be referred to SunEdison for consideration before funding will be released.

Funds are limited but it is hoped there will sufficient to provide meaningful help for both small and larger projects so that the benefit of this generous gift can be felt across all sections of the community. To allow community groups time to prepare applications, no project will be considered before January 2016.

APPLICATIONS FOR FUNDING INVITED

Applications will only be considered

- if made in writing to the Clerk to the Council (see address below)

and initially should be submitted by 31st December 2015 to include

- details of the purpose(s) for which funding is sought
- an assessment of how the community will benefit
- a prediction of the duration of the benefit
- details of how the funding will be spent including
 - quotations for any capital purchases
 - costed details for ongoing provision of services
- details of the organisation which will administer the funding and become the owners of any item(s) to be purchased.

In order to encourage open minded thinking there are no guidelines as to the nature of projects that will receive favourable consideration. Further information may be required after initial consideration prior to referral to SunEdison, in which case applicants will be approached directly.
