

WASTE AND RECYCLING CENTRES CLOSE BUT KERBSIDE COLLECTIONS CONTINUE

Pembrokeshire's six Waste and Recycling centres have now closed but kerbside waste and recycling collections across the County are to continue.

"Staff have been redeployed from services such as Leisure, Building Maintenance and the Waste and Recycling Centres following their closure in response to the Government's 'Stay at Home' rules.

Any future service changes that become necessary will be announced via the Pembrokeshire County Council Website, Facebook and Twitter pages.

Public Health Wales has issued the following advice for disposal of personal waste during the coronavirus outbreak:

- **Personal waste (such as used tissues) and disposable cleaning cloths/ wipes should be placed securely within a disposable rubbish or plastic bag.**
- **These bags should be placed into another second bag, tied securely and kept separate from other waste.**
- **This should be put aside for at least 72 hours before being placed in your usual residual "grey" bags for collection.**

Please ensure all recycling is sorted correctly. With reduced staffing levels, this will help Council staff to collect and empty your recycling more easily.

Staff are currently finding large amounts of brown paper/packaging being placed in the paper box when this should be put into the cardboard blue bag.
